Learn How Sustainable Thinking Can Benefit Our Environment

This three part introductory course in sustainable design, construction and operations of buildings and communities will address:

- Introduction to basic concepts and terms of sustainability
- The business case for green buildings
- Recent trends and future forecast related to this new way of thinking

Whether it's your home, place of work, or children's school any building can be made healthier, more efficient and better for the environment—this program will address the many ways sustainable thinking can benefit our built environment.

Seminar Highlights:

- Learn the basic concepts and terms of sustainability
- Hear about recent trends and future forecast in sustainability

- Discussion on business case for green buildings
- Learn how you can benefit from SDG&E's incentives

Speaker

Doug Kot is the Executive Director of US Green Building Council - San Diego Chapter. Doug is an architect and planner with more than 15 years of experience with green building and environmentally sustainable planning projects. His experience includes all phases and scales of project development from writing general plans through building detailing to conceptual design through post-occupancy evaluation.

Doug also has extensive experience teaching green design and technology, having taught courses on building energy use and ecological urban design.

Offering informative seminars is one of the ways SDG&E® is helping our business customers manage their energy use and reduce operating costs.

Programs: Program content and speakers are subject to change without notice. Space is limited, and all programs are offered on a space available basis. San Diego Gas & Electric® (SDG&E) reserves the right to cancel any program. In the event of such cancellation, SDG&E has no responsibility for non-refundable or other costs incurred by registrants in anticipation of any program. Registrants must be 16 years of age or older, and casual business attire is requested.

Cancellation policy: Written or verbal notice of cancellation by registrant should be received by SDG&E at least seventy-two (72) hours prior to the start of the program.

Disclaimer: Content of seminars and other program information is general in nature and not guaranteed or warranted to provide solutions to any specific situation. Programs are provided for information purposes only. SDG&E is not responsible for the views, interpretations or recommendations made in any program, which reflect the positions of the presenters. SDG&E does not endorse any particular product, manufacturer or service discussed, and does not represent that any goods or services are fit for any purpose or use.

This program is funded by California utility customers and administered by SDG&E under the auspices of the California Public Utilities Commission. California consumers are not obligated to purchase any product or service mentioned in this program. If you have specific questions regarding SDG&E's energy-efficiency programs and related rebates, call SDG&E's Energy Savings Center (ESC) at 1-800-644-6133.
